This is a broad-based, multiethnic conference for African American, African immigrant, Asian American, Latino/Latina, Arab/Muslim/North African, labor, interfaith, LGBT, student, anti-war/peace and global justice groups from across the country. The conference will allow a space for us to meet face-to-face to discuss how to build a new national, broad-based, immigrant rights/civil rights movement. The working points of unity for the conference are:

- No to the anti-immigrant HR4437/SB2611 legislations from Congress**
- No to militarization of the border**
- No to criminalization of immigrant communities**
- No to the planned immigrant crackdown across the country**
- No to the guest worker program**
- No to the employer sanction**
- Yes to amnesty for undocumented immigrants**
- Yes to immigrant family reunification**
- Yes to a humane path to citizenship**
- Yes to labor rights and living wages for all workers**

On May 1st, we showed the world that our force, our strength and our voice cannot be silenced from this moment on! This is the birth of a new civil rights movement for the 21st century, and we will fight for our demands until we prevail.

United We'll Win! Together We'll Achieve Our Dreams!
